Annual Index

American Scientist, Volume 73, 1985

American Scientist is a refereed journal. All manuscripts, both invited and unsolicited, are reviewed by the Board of Editors and outside experts before being accepted for publication.

Articles and Announcements

Anderson, Myrdene. *The Saami Reindeer-Breeders of Norwegian Lapland*, Nov., 524.

Branscomb, Lewis M. *Integrity in Science*, Sept., 421.
Buss, David M. *Human Mate Selection*, Jan., 47.

Cotton, William R. *Atmospheric Convection and Nuclear Winter*, May, 275.

Denning, Peter J. *The Science of Computing*, Jan., 16.
Denning, Peter J. *The Science of Computing*, March, 127.
Denning, Peter J. *The Science of Computing*, May, 225.
Denning, Peter J. *The Science of Computing*, July, 322.
Denning, Peter J. *The Science of Computing*, Sept., 414.
Denning, Peter J. *The Science of Computing*, Nov., 516.
D'Hoker, Eric, & Edward Farhi. *The Proton as a Topological Twist*, Nov., 533.

Fernie, J. Donald. *Marginalia*, May, 281.
Fernie, J. Donald. *Marginalia*, Sept., 471.
Ferrell, T. L., T. A. Callcott, & R. J. Warmack. *Plasmons and Surfaces*, July, 344.
Field, Richard J. *Chemical Organization in Time and Space*, March, 142.
Flink, James J. *Innovation in Automotive Technology*, March, 151.

Graham, Linda E. *The Origin of the Life Cycle of Land Plants*, March, 178.

Haymon, Rachel M., & Ken C. Macdonald. *The Geology of Deep-Sea Hot Springs*, Sept., 441.
Hutchings, J. B. *Observational Evidence for Black Holes*, Jan., 52.

Jackson, C. Ian. *Exploration as Science: Charles Wilkes and the U.S. Exploring Expedition, 1838–42*, Sept., 450.
Jackson, Jeremy B. C., & Terence P. Hughes. *Adaptive Strategies of Coral-Reef Invertebrates*, May, 265.
Jolly, Alison. *The Evolution of Primate Behavior*, May, 230.

Krumhansl, Carol L. *Perceiving Tonal Structure in Music*, July, 371.
Kurzweil, Raymond. *What Is Artificial Intelligence Anyway?*, May, 258.

Laws, Kenneth. *Physics and Dance*, Sept., 426.
Laws, Richard M. *The Ecology of the Southern Ocean*, Jan., 26.
Leibowitz, H. W. *Grade Crossing Accidents and Human Factors Engineering*, Nov., 534.
Lowenstein, Jerold M. *Molecular Approaches to the Identification of Species*, Nov., 541.
Lugt, Hans J. *Vortices and Vorticity in Fluid Dynamics*, March, 162.

Morse, Edward E., & Barry Jacobs. *Blood Donation and Its Aftereffects*, Jan., 68.

Nadel, Ethan R. *Physiological Adaptations to Aerobic Training*, July, 334.
Nelson, Philip. *Naturalness in Theoretical Physics*, Jan., 60.
Niklas, Karl J. *Wind Pollination—A Study in Controlled Chaos*, Sept., 462.

Parnas, David Lorge. *Software Aspects of Strategic Defense Systems*, Sept., 432.

Rasmusson, Eugene M. *El Niño and Variations in Climate*, March, 168.

Sebens, Kenneth P. *The Ecology of Subtidal Rocky Shores*, Nov., 548.
Shapiro, Stuart L., Richard F. Stark, & Saul A. Teukolsky. *The Search for Gravitational Waves*, May, 248.
Shashoua, Victor E. *The Role of Extracellular Proteins in Learning and Memory*, July, 364.
Sigma Xi, The Scientific Research Society
National Lecturers 1985, Jan., 104.
National Officers and Standing Committees, July, 406.
1985 Annual Meeting Program, Sept., 502.
Sofia, Sabatino, Pierre Demarque, & Andrew Endal. *From Solar Dynamo to Terrestrial Climate*, July, 326.
Spradley, Joseph L. *Particle Physics in Prewar Japan*, Nov., 563.

Thomson, Keith Stewart. *Marginalia*, March, 187.
Thomson, Keith Stewart. *Marginalia*, July, 379.
Thomson, Keith Stewart. *Marginalia*, Nov., 570.
Torrey, John G. *The Development of Plant Biotechnology*, July, 354.

Wahr, John. *The Earth's Rotation Rate*, Jan., 41.
Wendorf, Fred, Angela E. Close, & Romuald Schild. *Prehistoric Settlements in the Nubian Desert*, March, 132.
Wheeler, J. Craig, & Ken'Ichi Nomoto. *How Stars Explode*, May, 240.

Zimmerman, Michael R. *Paleopathology in Alaskan Mummies*, Jan., 20.
